

Bug Report

Below table shows the defects(bugs) found in the application during various phases of testing:

Sno	Defect Description	Steps to Reproduce	Severity	Comments
1	Sensitive customer information is displayed in the api's	<p>Prerequisite: User is already registered</p> <ol style="list-style-type: none">1. Open Developer tool in the browser2. Login to https://buggy.justtestit.org3. Click on token and check the form data details displayed at the bottom of the request for the requested url: https://k51qrygov3.execute-api.ap-southeast-2.amazonaws.com/prod/oauth/token <p>Actual Result: Customer username and password is displayed</p> <p>Expected Result: Customer sensitive information should be encoded</p> <p>This issue is observed in all of the below endpoints:</p> <p>- https://k51qrygov3.execute-api.ap-southeast-2.amazonaws.com/prod/users/current - https://k51qrygov3.execute-api.ap-southeast-2.amazonaws.com/prod/oauth/token - https://k51qrygov3.execute-api.ap-southeast-2.amazonaws.com/prod/users/profile</p>	Critical (S1)	
2	Integration with third party applications like twitter and facebook is missing the backward loop to navigate the user back to Buggy	<ol style="list-style-type: none">1. Go to https://buggy.justtestit.org2. Click on facebook icon at the bottom of the page3. Fill in facebook username and password4. Click on Login button <p>Actual Result: User is just logged in to Facebook in another tab</p>	Critical (S1)	

	Cars Rating website	Expected Result: After login it should route to https://buggy.justtestit.org homepage		
3	Different model of cars with the same votes are displayed with different rank	<p>Prerequisite: vote 2 different model cars with the same number of votes. This might require 2 or 3 different logins as using 1 login you can just give 1 vote per car. Login and check the ranks of both the car models</p> <p>Actual Result: Both the car models shows different rank but same number of votes</p> <p>Expected Result: Both the car models should share the same rank as both have the same number of votes. It does not show correct information to the user. As users/people might check just the rank and ignore the votes.</p>	Critical (S1)	
4	Registration page - Password and Confirm Password field does not have any hover-over or text message underneath the field to show the expected criteria e.g minimum number of characters, any special character required	<p>1. Go to https://buggy.justtestit.org</p> <p>2. Click on Register button on the top of the page</p> <p>3. Fill in Login, FirstName, Last Name, Password and Confirm Password as "Pal123"</p> <p>Actual Result: It display error message as <i>InvalidPasswordException: Password did not conform with policy: Password not long enough</i></p> <p>Expected Result: Password field should display a hover-over or a text message showing the accepted criteria for the field</p> <p>4. Now delete both the password and try "Pal123456" as user has added 3 more character</p> <p>Actual Result: It display error message as <i>InvalidPasswordException: Password did not conform with policy: Password must have symbol characters</i></p>	Major (S2)	It is a usability issue.

5	Appropriate error message is not displayed on the Change Password page when current password is filled incorrectly	<p>Prerequisite: User is already registered</p> <ol style="list-style-type: none"> 1. Login to https://buggy.justtestit.org 2. Click on Profile on the top bar 3. Fill in incorrect Current Password 4. Fill it new and same password in New Password and Confirm Password field 5. Click on Save button <p>Actual Result: NotAuthorizedException: Incorrect username or password.</p> <p>Expected Result: It should tell the user exactly at what point it is failing. Something like "Please enter the correct Current Password".</p>	Major (S2)	
6	Forget password option is missing on the website	<ol style="list-style-type: none"> 1. Go to https://buggy.justtestit.org 2. Click on Register button on the top of the page 3. Fill in all the valid details on the page 4. Click on Register button - It display Registration is successful 5. Navigate to the top of the page, fill in invalid credentials and Click on Login button <p>Expected Result: There should be a forgot password option</p>	Major (S2)	These days the user logs in to multiple websites and creates an account and it's a human tendency to forget the password. In case a user is in that condition, he is left nowhere and blocked from login to the application.
7	From Popular Make page, clicking on "Buggy Rating" on the header, does not navigate the user to the homepage	<p>Prerequisite: User is already registered</p> <ol style="list-style-type: none"> 1. Login to https://buggy.justtestit.org 2. Click on Popular Make 3. Try to click on the Buggy Rating on the left corner top of the page <p>Actual Result: Buggy Rating is non clickable. User need to click on any car model and then Buggy Rating is clickable</p> <p>Expected Result: To be consistent with other flows, Buggy Rating should be clickable and navigate user to the homepage as it does when user clicks on Buggy Rating from Popular Model or Overall Rating page</p>	Minor (S3)	

8	After login to the website, user is not navigated automatically to the homepage	<ol style="list-style-type: none"> 1. Go to https://buggy.justtestit.org 2. Click on Register button on the top of the page 3. Fill in all the valid details on the page 4. Click on Register button - <i>It display Registration is successful</i> 5. Navigate to the top of the page, fill in credentials and Click on Login button <p>Expected Result: After successful login, user is still on the same page i.e. Registration</p> <p>Actual Result: Result: After successful login, user is still on the same page i.e. RegistrationFor good user experience, when user login, page should refresh and user should be on the homepage</p>	Trivial (S4)	Good to have for a great user experience
9	Sorting when clicking on the Rank column on Overall Rating page is incorrect	<p>Prerequisite: User is already registered</p> <ol style="list-style-type: none"> 1. Login to https://buggy.justtestit.org 2. Click on Buggy Rating on the left corner on the top bar 3. Click on Overall Rating section 4. Click on Rank column to sort the rating in ascending order <p>Actual Result: It shows sorting of car based on the first digit of the number. Hence sorting is like 1, 10, 11...19,2,20..</p> <p>Expected Result: Sorting should be based on the number i.e 1,2,3....</p>	Trivial (S4)	This is marked as Trivial as whenever the Overall rating page is refreshed, the cars are sorted based on the number of votes, which indirectly sort ranking in the correct order
10	In the Overall Rating page, image of car Lanci - Ypsilon is not displayed	<p>Prerequisite: User is already registered</p> <ol style="list-style-type: none"> 1. Login to https://buggy.justtestit.org 2. Click on Buggy Rating on the left corner on the top bar 3. Click on Overall Rating section 4. Navigate to the page 5 by clicking on the navigation button >> <p>Actual Result: Image of car Lanci - Ypsilon is not displayed</p> <p>Expected Result: Image of car Lanci - Ypsilon should be displayed</p>	Trivial (S4)	

Screenshots

For all the above mentioned bugs, screenshots are displayed in this section.

Note: For easy navigation, click on the , all the Defect number have headings applied.

The image shows a web application interface on the left and a browser's developer tools on the right. The web application has a header 'Buggy Rating' with links 'Hi, Pallvi', 'Profile', and 'Logout'. The main content area has a large heading 'Buggy Cars Rating' and a line drawing of a sports car. Below this are three sections: 'Basic' with fields for Login (Pallvi), First Name (Pallvi), and Last Name (Khurana); 'Additional Info' with fields for Gender (Female), Age (22), Address (39 Benteleigh Avenue, New Windsor), Phone (0211343053), and Hobby; and 'Additional Info' with a 'Change Password' form. The browser's developer tools on the right show the 'Network' tab with a request to 'data:image/png;base...' selected. The 'Headers' tab shows the response body, which is a JSON object:

```
{
  "username": "Pallvi",
  "firstname": "Pallvi",
  "lastname": "Khurana",
  "gender": "Female",
  "age": "22",
  "address": "39 Benteleigh Avenue, New Windsor",
  "firstname": "Pallvi",
  "gender": "Female",
  "hobby": "Other",
  "lastname": "Khurana",
  "phone": "0211343053",
  "username": "Pallvi"
}
```

 A red arrow points to the 'Profile' link in the web application's header.

The screenshot displays the Facebook homepage interface. At the top, the browser's address bar shows the URL 'https://www.facebook.com' and the page title '(6) Facebook'. The Facebook navigation bar includes the search bar, home icon, friends icon, video icon, marketplace icon, and a group icon. The main content area shows a post from Pallvi Khurana asking 'What's on your mind, Pallvi?'. Below this is a 'Suggested for you' section featuring a post from 1News about a Zoom meeting. The right sidebar contains sponsored ads, including one for 'Up to \$100 Off' and another for 'myob.com'.

plunged in the wake of the 1973 worldwide financial downturn and the oil crisis. The firm's ownership changed three times after 1973, including a bankruptcy in 1978. American Chrysler Corporation took control of Lamborghini in 1987 and sold it to Malaysian investment group Mycom Setdco and Indonesian group VPower Corporation in 1994. In 1998, Mycom Setdco and VPower sold Lamborghini to the Volkswagen Group where it was placed under the control of the group's Audi division.

Lamborghini produces sports cars and V12 engines for offshore powerboat racing. Lamborghini currently produces the V12-powered Aventador and the V10-powered Huracán.

Defect 4

The screenshot shows the 'Register with Buggy Cars Rating' page. The user has entered 'Pallvi' for the login, 'Test' for the first name, 'Khurana' for the last name, and a password consisting of 10 asterisks. The 'Confirm Password' field also contains 10 asterisks. A red box highlights the error message: 'InvalidPasswordException: Password did not conform with policy. Password not long enough'.

The network tab on the right shows a POST request to 'https://buggy.justtestit.org/'. The request headers include 'x-amzn-trace-id: Root=1-6159445e-2757193445cfa1a22c8f699;Sampled=0' and 'x-cache: Error from cloudfront'. The request payload is a JSON object:

```
{ "username": "Pallvi", "firstName": "Test", "lastName": "Khurana", "password": "Pall123", "confirmPassword": "Pall123" }
```

. The password field in the payload is highlighted with a red box.

Buggy Cars Rating

Lamborghini

Automobili Lamborghini S.p.A. is an Italian brand and manufacturer of luxury sports cars and SUVs based in Sant'Agata Bolognese, Italy. The company is owned by the Volkswagen Group through its subsidiary Audi. In 2015, Lamborghini's 1,175 employees produced 3,248 vehicles.

Ferruccio Lamborghini, an Italian manufacturing magnate, founded Automobili Ferruccio Lamborghini S.p.A. in 1963 to compete with established marques, including Ferrari. The company gained wide acclaim in 1966 for the Miura sports coupé, which established rear mid-engine, rear wheel drive as the standard layout for high-performance cars of the era. Lamborghini grew rapidly during its first decade, but sales plunged in the wake of the 1973 worldwide financial downturn and the oil crisis. The firm's ownership changed three times after 1973, including a bankruptcy in 1978. American Chrysler Corporation took control of Lamborghini in 1987 and sold it to Malaysian investment group Mycom Setdco and Indonesian group V'Power Corporation in 1994. In 1998, Mycom Setdco and V'Power sold Lamborghini to the Volkswagen Group where it was placed under the control of the group's Audi division.

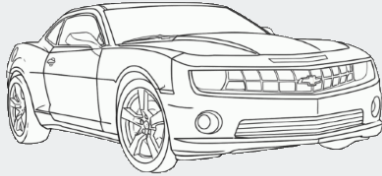

Lamborghini produces sports cars and V12 engines for offshore powerboat racing. Lamborghini currently produces the V12-powered Aventador and the V10-powered Huracán.
